Summary

Driven by a passion for technology and cybersecurity, I am currently pursuing a degree in Web Development, where I am gaining expertise in programming, databases, and software development. My goal is to specialize in cybersecurity, utilizing my technical expertise to protect systems and data from digital threats.

My previous background in Communication and Media has equipped me with essential skills such as project management, collaboration, and creativity. These skills enhance my ongoing training and growing interest in cybersecurity, equipping me to face the challenges of a constantly evolving technological environment.

I am actively working toward certifications in Google Cybersecurity and Data Analytics, as well as IBM Data Science, to further strengthen my knowledge.
